The State Attorney, 16th Circuit does not maintain any document or list that would include the names of police officers that are known to have a history of misconduct that would call into question their veracity, and I therefore have no records related to that request that I can provide.

There is likewise no document maintained by this office that addresses your request for a written explanation in this context. Chapter 119 does not contemplate or require the creation of documents or a response to questions such as the one you have asked.
