Phillips County averages 5-6 law enforcement officers. No formal list is necessary.

would like to post more than that - would like to post (if correct) that your agency honors the brady / giglio mandates - that for whatever reason(s) (small county - low number of police officers - no brady cops are known) that a formal list is not necessary. However, if your below post is as fully accurate as you would like - we can go with that.

Either way - thanks for the response.
