I'm prosecuting attorney of Wahkiakum County. I see that you have Wahkiakum County down as having received two public request notices from you regarding a Brady list. I have received nothing from you. I heard about your website, and your claim to have made a request of me, for the first time today. The information came from a third party.

Whatever you did to try to reach me didn't work. If you want to contact me again for any reason, this is the email address at which you can find me.

Don't worry, I'm not going to stand on formalities. To answer the question you apparently tried to ask me, there's no Wahkiakum County Brady list, and if there was, there wouldn't be anybody on it. (There are only seven officers in the sheriff's office, which is the only law enforcement agency in the county.)

Hope that helps. Get in touch if you need more.
